BACCOCC.COM

The company's primary territory is in the central part of the Upper Peninsula, however, Bacco's services extend to all of Michigan and Wisconsin.

The founder, Medio Bacco, was awarded the company's first contract in 1915. On April 9, 1930 Bacco Construction Company was incorporated. The four original stockholders were Medio Bacco, his brother John Bacco, Carl Israelson, and Arthur Fortier.

Being Michigan's oldest pre-qualified contractor, Bacco Construction Company has been pre-qualified with the Michigan Department of Transportation (MDOT) for over 70 years. The company is also pre-qualified with the Wisconsin Department of Transportation (WDOT). Bacco Construction Company handles a wide array of jobs and in recent history, the company's work has been split between Department of Transportation projects and the private market.

Bacco Construction Company is a member of and actively participates in the following association groups:
